

## CARTRIDGE FILTERS

- Wire backed filtration medias.
- Self supporting non-woven medias
- High filtration efficiencies
- Excellent dust cake release.
- Cleanable

**Materials:** PTFE - Spunbond media - Polyfelt Micron Rated

## BAG HOUSE FILTERS

- Pulse Jet Needled felt tubes
- Tubes for Shaker and Reverse Air Filters
- Envelope Bags for Leaf Filters
- Anti- Static Bags
- High Temperature Bags

## LIQUID FILTER BAGS/ LOADER FILTERS

- Felt bags: 1 to 100 micron range, come in polyester and polypropylene materials.
- Mesh bags: woven construction, 5 to 800 micron range, multifilament and monofilament mesh.
- Metal retaining ring at opening, heavy duty handles.

- Conair, ACS, Novatec, Una-Dyn, AEC, Nucon (wittman) and Mouldtek.
- Diameters Available: 8 1/4", 9 3/4", 11 1/2", 14", 15" 17", 22" 36"
- Polyester ( Dacron) Mesh Woven Nylon.

- Wide range of materials. lengths and micron retention.
- High-quality elements have high dirt-holding capacity with high efficiency.
- Full range of center core materials

## SHAKER

**Shaker Cover**

**Polyurethane Tubing**

**Pure Gum Rubber Tubing (Seamless)**

**Flexible Sock/Connector Sleeves**

**Corrugated Boots and Screening Balls**

*We have spare parts for shakers, including Screens, Clamp Ring assembly, Motors, Springs, bolts, nuts and other parts for your shakers.*

## NDFP FLEXIBLE HOSE

**Flix-Thane LD**

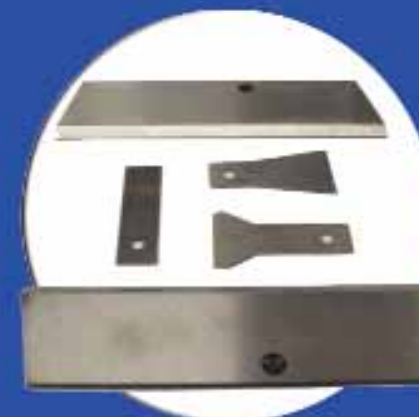

**Flix-Thane HD**

**Bendway S**

**Rowe Equipment, Inc**

- Thermocouples
- Cartridge Heaters
- ScreenPacks/Filters
- Ceramic/Mica Heaters
- Pelletizer Blades
- Pressure Transducers
- Industrial Filters

## HEATERS

Rowe Equipment supplies electrical heaters and sensors to many different industries, from packaging to injection and extrusion molding, rubber extrusion and mold makers. We offer Mica Band, Mica Strip, Ceramic Band, Channel Strip, Cartridge, Cable Coil and High Performance Heaters as well as Thermocouples. We insure the highest quality heaters and stand behind our products with a superior level of before and after sales service.

**Mica Band Heater**

**Thermocouples**

**Cartridge Heater**

**Nozzle Heater**

**Nozzle Heater**

**Mica Strip Heater**

## MELT PRESSURE/SENSORS/PROCESS CONTROLLERS

- Melt Transducers/Transmitters
- Analog and Digital Melt Gauges
- Rupture Disks, Cables and more

- Standard DIN Sizes (1/16, 1/8, 1/4)
- Pressure and Temperature Control
- Universal Input Process Indicators
- Various output and retransmission options

*Equivalent/Replacement for Dynisco, Gefran, GP-50 and Others*

## RUPTURE DISCS

Also known as burst plugs or soft plugs, for use in the plastics industry in their extrusion processes. These Rupture Discs have bodies constructed of stainless steel with inconel diaphragms. They are available in different lengths and are supplied with pressure ratings ranging from 1,000psi (70 bar) to 10,000psi (750 bar)

## COPPER GAUZE

Used in modern plastic processing in various methods. Used to clean screws and breaker plates.

## EXTRUDER SCREENS

### Cut Pieces

For use in plastic and rubber processing machinery to ensure a clean and viable extrusion. Extruder Screens are available as cut pieces, spot weld packs, cylinders and cones as well as custom fabrications for specialized/custom applications.

### Cones

Typically a specialty application, our engineering staff excels in demanding situations

### Spot Weld Packs

Combines screens together in one unit, for ease of operation, better inventory control, and process control assurance. Screens are resistance welded together at precise points that don't disturb the polymer flow. The location and number of spot welds can be customized for your process.

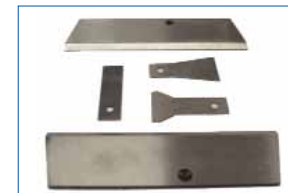

### Framed Packs

Utilize a seamless frame, typically of aluminum, copper or stainless steel to contain a specific pack combination. Framed packs ease operation, provide better sealing around the edge of the breaker plate and provide for strict inventory and quality control.

## PELLETIZER BLADES

Rowe Equipment is a leading supplier of Strand and Underwater Pelletizer Blades for use in the plastics and rubber industries. We offer Pelletizer Knives for all machine makes and models including Beringer, Gala, Conair, Rieter/Automatik, Ikegai and Cumberland as well as many more.

### Erema Pelletizer Blades

Single hole  
Double row  
Densifier blades

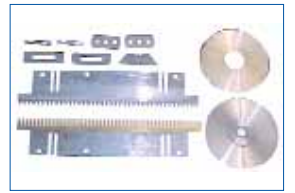

### Gala Pelletizer Blades

- 32 wide
- 81 wide
- 1.06 wide
- 1.27 wide In M-2 and D-2 hardness

### Beringer Pelletizer Blades

Wrp - 12  
Wrp - 35  
Wrp - 36  
Wrp - 36S In M -2 and D-2 hardness

### Slitter Blades

Injector Blade  
3-Hole Blade  
Slotted Blade  
Utility Blade  
Ceramic and Carbide Blades available
